

Drupal 8 Installing Commerce Kickstart on Acquia Dev Desktop (MAC)

On Acquia Dev Desktop
With an already Existing Acquia Dev
Desktop

What Is Commerce Kickstart?

- Commerce Kickstart is the quickest way to get up and running with Drupal Commerce. It includes the latest versions of Drupal core, Drupal Commerce, and the other modules it depends on. It also gives you a set of options to create a fully-featured demo store out of the box complete with an attractive theme, catalog and search configuration, and a custom back office interface.
- Who should use Commerce Kickstart? Anyone who wants to skip weeks of configuration to build a commerce site on the Drupal Commerce framework.
- Sponsored by Commerce Guys.

Please do not try to install Commerce Kickstart on WAMP

Watch the [Webinar](#)

Commerce Kickstart 2.x

Important: WAMP has a bug causing Kickstart to be non-installable. See [#1648992: Connector submodule form Description is highlighting buggy WAMP install](#).

Use the Acquia Dev Desktop (see the [tutorial](#)), or some other stack if you run into this problem.

See the [installation and upgrading guide](#) before attempting install.

Please note that the "demo store" has been built to demonstrate the capabilities of Kickstart and shouldn't be used when starting new sites.

Development

Development now takes place in a public [Github](#) repository.

Issues for the individual modules that come with Kickstart should be reported directly in those modules' issue queues.

Develop with Commerce Kickstart on Platform.sh

[Platform.sh](#) is optimized for developing and deploying Commerce Kickstart 2.x based websites, using a proven Git workflow driven by drush make. All projects get SSL support out of the box and any number of environments, with development costs starting as low as \$10 / month.

Installing & Upgrading Guide

<https://drupalcommerce.org/commerce-kickstart-2/install>

The screenshot shows the top navigation bar of the DrupalCommerce website. It includes links for 'COMMERCE GUYS' and 'DRUPAL COMMERCE'. On the right side, there is a search bar with a magnifying glass icon and a 'LOG IN' button. Below the main header, there is a secondary navigation bar with links for 'EXTENSIONS', 'DOCUMENTATION', 'GET HELP', 'BLOG', 'CONTRIBUTE', and 'SHOWCASE'. The 'CONTRIBUTE' link has a small hand cursor icon pointing to it.

Documentation

The screenshot shows a page titled 'Installing & Upgrading' under the 'Commerce Kickstart 2' section. The page content discusses the ease of installing the project and provides a troubleshooting link. To the right, a sidebar lists several topics under 'Commerce Kickstart 2', with a red arrow pointing to the 'Acquia DEV Desktop' link, which is highlighted with a yellow background.

Thank you for choosing Commerce Kickstart, a product offered by Commerce Guys.

While we have a rather long, boring Privacy Policy just like any other technology company, here is a short summary of some key items we feel are important:

- Commerce Kickstart makes use of [Google's DoubleClick for Publishers \("DFP"\)](#);
- We use DFP to show you content relevant to Drupal Commerce at various points and places in Commerce Kickstart, including during installation;
- DFP is a third-party technology. It uses audience management tags which collect and use certain data;
- Commerce Guys does not collect any personally identifiable information;
- If at any time after installation you do not want us to utilize DFP through Commerce Kickstart, you can easily opt out of it;

That is it for the main points. The full [Privacy Policy and User Agreement](#) can be viewed on our website. Thank you again for choosing Commerce Kickstart!

A black circle highlights the left t-shirt, which has "FREE SHIPPING" and "\$99.99". A white circle highlights the right t-shirt, which has "LIMITED EDITION".

Replacing the Admin toolbar

Replacing the administration toolbar

Commerce Kickstart 2 comes with an administration toolbar tailored for specific needs. It gives you quick access to the most important tasks in order to have full control over your online shop.

However, if you prefer to use Drupal core's Toolbar module or the very popular [Administration Menu](#), you have the option to use them instead of the built-in toolbar. All you have to do is **disable and uninstall Commerce Kickstart Menus module** and you are ready to go with your choice.
